

Alif FMS — Facility Management Solution

FACILITIES

Keep buildings, equipment and maintenance teams running smoothly with one streamlined facility platform.

OVERVIEW

Alif FMS focuses on the day-to-day of facility operations — maintenance requests, scheduled servicing, vendor coordination and help desk tickets — giving facility teams a simple, reliable system to keep everything running without the manual chasing.

KEY FEATURES

● Maintenance Request Management

Log, assign and track maintenance requests from raise to close.

● Vendor Coordination

Keep external vendors and contractors aligned with the schedule.

● Equipment & Asset Records

Maintain a clear record of equipment condition and history.

● Preventive Maintenance Scheduling

Plan recurring servicing so nothing gets missed.

● Help Desk & Ticketing

A simple ticketing flow for tenants, staff or building occupants.

● Alerts & SLA Tracking

Automatic alerts keep response times within agreed SLAs.

WHY TEAMS CHOOSE ALIF FMS

- Fewer missed maintenance windows
- Faster ticket resolution times
- Clear vendor accountability
- One system for the whole facility team
